INSHORE/LIGHT TACKLE

We have Bay Boats from Hydra-Sports and Special Edition (SE) Parkers. These boat are true multi-purpose inshore and heavier water boats. We still carry Maverick-Hewes-Pathfinder boats as special order only. We also have access to Ranger Boats through Westport Outfitters.

WHAT'S NEW

YAMAHA OUTBOARDS

We are proud to announce our Full Line & "Key Dealership" status with Yamaha Motors. We now can offer the complete line of Yamahas: 2.5 to 350hp. We stock most popular models for immediate delivery. Our Key Dealership status means that we have made a commitment to only sell Yamaha Outboards. This commitment on our part is the result of our immense satisfaction with Yamaha as a company and with the products they make. If you are ready to get into a new outboard motor, come in or call to discuss why a Yamaha is right for you.

FALL BOATING

It is a beautiful but dangerous time of year to be out on the Sound. Weather can change quickly! Be prepared with warm clothes, plenty of fuel, and a proper float plan if you plan on boating when not many people will be nearby to help you.

WESTPORT OUTFITTERS

We have formed a "strategic partnership" with Eric Johnson at Westport Outfitters. This unique shop offers a complete tackle center, apparel, fly-fishing and light tackle gear, seminars throughout the season, fishing guides and instructional charters, fresh bait, and loads of local knowledge on where and how to catch fish. We trust and recommend Westport Outfitters to get you all the best gear for your next trip.

CARE OF YOUR BOAT

WINTER STORAGE & SERVICES

We offer a wide array of winterization services. Our most popular service is: "Full Service Winter Storage". Every boat we store receives Full Service including everything necessary for both Fall decommissioning, storage, and spring commissioning. Your boat is serviced by professionals, stored in a protected area, and in the spring it is prepped and ready for you to enjoy for another season.

TO AVOID CONFUSION, THIS SERVICED IS BILLED WITH 3 SEPARATE INVOICES: WINTER STORAGE, FALL SERVICE, AND SPRING SERVICE.

We also offer a wide range of services including tune-ups, power washing, hauling and delivery to your house, shrink wrapping, winterization, and more.

Our rates and contracts are available at each facility and on our website. Please reserve your space early and get on our schedule before it gets too cold.

EMAIL US WITH YOUR REQUESTED SERVICE DATE & TO GET ON OUR ADDRESS LIST.

WINTER WORK

Winter is a great time to have major projects completed on your boat. Is it time for a new motor, major fiberglass work, canvas replaced, electronics installed, or something else that never seems to get done? We have an inside shop with room to get things done while your boat is not in use. Please call to discuss scheduling major work.
